**CEUs will be offered**

**Meeting Purpose:**

- To develop a better understanding of ethical, regulatory, and policy issues involved in conducting community-engaged research in national and international settings
- To provide a forum for researchers, regulators, and community representatives to network and form partnerships

**Educational Objectives:**

- To raise awareness of participants as partners in research
- To provide tools for conducting community-engaged research
- To identify roles, responsibilities, and challenges of stakeholders in conducting community-engaged research
- To clarify the role of 45 CFR 46 in protecting human subjects and community

**Who Should Plan to Attend:**

- IRB members, administrators and staff
- Principal investigators and research personnel
- Human subject protection professionals and administrators
- Legal counsel and staff
- Institutional officers, deans, and vice-chancellors
- Patient and participant advocates
- Public health officials
- Science media representatives
- Clinical monitors
- Site coordinators, research coordinators
- Community advisory board members
- Clinical research organizations
